Flat Roof System

The Solar Limpet system provides a simple, reliable roof hook solution for flat roof applications. Solar Limpets for Flat Roof applications are only compatible with side-fix type rails, which utilise an M8 T bolt and flange nut to connect the rail to the roof hook.

Solar Limpets are warranted for 20 years, providing the installation is carried out by a Solar Limpet certificated installer, the installation instructions have been complied with in full, and the roof was surveyed as suitable for PV installation.

Dimensions

Technical Data

Component Name	Part Number	Material Type	Weight	Patent App No.
Limpet Base Plate	SL-BP00001	PVC	567g	GB2488188 GB2601807
Limpet Adjustable Bracket	SL-AB00001	PVC	77g	GB2214996.7
Adjustable Bracket to Base Plate Bolt	SL-ABBPB01	Stainless Steel	15g	
Adjustable Bracket to Base Plate Nut	SL-ABBPN01	Stainless Steel	4g	
Adjustable Bracket to Base Plate Washer	SL-ABBPW01	Stainless Steel	7g	
50 x 50mm Screws	SL-BPFS50	Stainless Steel	10g	
Base Plate Fixing Screw Washers	SL-BPFSW01	Aluminium/EPDM	4g	
Limpet Flat Roof Bracket and Washer	SL-ABFR001	PVC	60g	GB2214996.7
60mm Hammer Bolt	SL-FRBB60	Stainless Steel	23g	
Base Plate Seals	SL-BPS0001	EPDM	< 1g
